

Toggle stick, 4 directions with latch position.

Applications

The toggle stick from Series 45 (4 directions with latch position, lockable) is suitable for various applications.

Part No.

45-1F27.2010.000109

Mechanical characteristics

- Mounting
Ø 22.5 mm, raised
- 2 axes
- Rigid cross guidance
- 35° deflection angle
- No other handle
- Mechanical service life
up to 10 million switching cycles

Electrical characteristics

- Operating voltage
5 to 500 V
- Contact material
silver
- Output signal
AC15: 6A/24 V to 1.4A/500V
- Connection
screw terminal

Ambient conditions

- Operating temperature
-25 °C to +70 °C
- Storage temperature
-40 °C to +85 °C

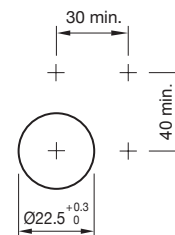

Degree of protection

- IP65, IP67, IP69K front protection
- IP20 or IP40 rear protection
